- Source documents for columns (3) through (8) are from the Fiscal Year Periodic Timber Sale Accomplishment Report (PTSAR).
- Source documents for columns (10) and (11) are from the Fiscal Year Timber Cut and Sold Report.
- Differences between volumes in columns (4) and (11) is that column (11) includes sales sold that were programmed as financed sell in previous Fiscal Years, plus any adjustment made after the final report was submitted.
- AAC is used through 1973; Potential Yield is used 1974-1986; Allowable Sale Quantity (ASQ) is used after 1986.
- Salvage Sale Fund volumes are included in columns (3) through (8).
- Volume under contract (12) include sawlogs and convertible products.
- Beginning in FY2006, timber sale accomplishments changed from Volume Offered to Volume Awarded.
- In FY2006 only, column (4) includes FY 2006 volume awarded and FY 2005 volume offered but not awarded until FY 2006.
- Starting in FY2009, Actual Sell volume (column 4) from the PTSAR will match the Total Sold volume (column 11) from the Cut and Sold Reports.

# From 1987 on, Forest ASQ is composed of the following noninterchangeable components.  
Green and Recent dead 38.0 MMBF; Older Dead and Post and Poles 2.3 MMBF; and Pulp .0 mmbf

Data in some columns may not be completely accurate due to rounding.

- Source documents for columns (3) through (8) are from the Fiscal Year Periodic Timber Sale Accomplishment Report (PTSAR).
- Source documents for columns (10) and (11) are from the Fiscal Year Timber Cut and Sold Report.
- Differences between volumes in columns (4) and (11) is that column (11) includes sales sold that were programmed as financed sell in previous Fiscal Years, plus any adjustment made after the final report was submitted.
- AAC is used through 1973; Potential Yield is used 1974-1986; Allowable Sale Quantity (ASQ) is used after 1986.
- Salvage Sale Fund volumes are included in columns (3) through (8).
- Volume under contract (12) include sawlogs and convertible products.
- Beginning in FY2006, timber sale accomplishments changed from Volume Offered to Volume Awarded.
- In FY2006 only, column (4) includes FY 2006 volume awarded and FY 2005 volume offered but not awarded until FY 2006.
- Starting in FY2009, Actual Sell volume (column 4) from the PTSAR will match the Total Sold volume (column 11) from the Cut and Sold Reports.

# From 1987 on, Forest ASQ is composed of the following noninterchangeable components.  
Green And Recent Dead 31.2 MMBF; Older Dead And Post And Poles 2.2 MMBF; And Pulp .0 MMBF

- Source documents for columns (3) through (8) are from the Fiscal Year Periodic Timber Sale Accomplishment Report (PTSAR).
- Source documents for columns (10) and (11) are from the Fiscal Year Timber Cut and Sold Report.
- Differences between volumes in columns (4) and (11) is that column (11) includes sales sold that were programmed as financed sell in previous Fiscal Years, plus any adjustment made after the final report was submitted.
- AAC is used through 1973; Potential Yield is used 1974-1986; Allowable Sale Quantity (ASQ) is used after 1986.
- Salvage Sale Fund volumes are included in columns (3) through (8).
- Volume under contract (12) include sawlogs and convertible products.
- Beginning in FY2006, timber sale accomplishments changed from Volume Offered to Volume Awarded.
- In FY2006 only, column (4) includes FY 2006 volume awarded and FY 2005 volume offered but not awarded until FY 2006.
- Starting in FY2009, Actual Sell volume (column 4) from the PTSAR will match the Total Sold volume (column 11) from the Cut and Sold Reports.

# From 1987 on, Forest ASQ is composed of the following noninterchangeable components.  
Green And Recent Dead 163.3 MMBF; Older Dead And Post And Poles 1.0 MMBF; And Pulp 9.0 MMBF

Data in some columns may not be completely accurate due to rounding.

- Source documents for columns (3) through (8) are from the Fiscal Year Periodic Timber Sale Accomplishment Report (PTSAR).
- Source documents for columns (10) and (11) are from the Fiscal Year Timber Cut and Sold Report.
- Differences between volumes in columns (4) and (11) is that column (11) includes sales sold that were programmed as financed sell in previous Fiscal Years, plus any adjustment made after the final report was submitted.
- AAC is used through 1973; Potential Yield is used 1974-1986; Allowable Sale Quantity (ASQ) is used after 1986.
- Salvage Sale Fund volumes are included in columns (3) through (8).
- Volume under contract (12) include sawlogs and convertible products.
- Beginning in FY2006, timber sale accomplishments changed from Volume Offered to Volume Awarded.
- In FY2006 only, column (4) includes FY 2006 volume awarded and FY 2005 volume offered but not awarded until FY 2006.
- Starting in FY2009, Actual Sell volume (column 4) from the PTSAR will match the Total Sold volume (column 11) from the Cut and Sold Reports.

# From 1987 on, Forest ASQ is composed of the following noninterchangeable components.  
Green And Recent Dead 3.0 MMBF; Older Dead And Post And Poles .5 MMBF; And Pulp .0 MMBF

Data in some columns may not be completely accurate due to rounding.

- Source documents for columns (3) through (8) are from the Fiscal Year Periodic Timber Sale Accomplishment Report (PTSAR).
- Source documents for columns (10) and (11) are from the Fiscal Year Timber Cut and Sold Report.
- Differences between volumes in columns (4) and (11) is that column (11) includes sales sold that were programmed as financed sell in previous Fiscal Years, plus any adjustment made after the final report was submitted.
- AAC is used through 1973; Potential Yield is used 1974-1986; Allowable Sale Quantity (ASQ) is used after 1986.
- Salvage Sale Fund volumes are included in columns (3) through (8).
- Volume under contract (12) include sawlogs and convertible products.
- Beginning in FY2006, timber sale accomplishments changed from Volume Offered to Volume Awarded.
- In FY2006 only, column (4) includes FY 2006 volume awarded and FY 2005 volume offered but not awarded until FY 2006.
- Starting in FY2009, Actual Sell volume (column 4) from the PTSAR will match the Total Sold volume (column 11) from the Cut and Sold Reports.

# From 1987 on, Forest ASQ is composed of the following noninterchangeable components.  
Green And Recent Dead 12.1 MMBF; Older Dead And Post And Poles .0 MMBF; And Pulp .0 MMBF

Data in some columns may not be completely accurate due to rounding.

- Source documents for columns (3) through (8) are from the Fiscal Year Periodic Timber Sale Accomplishment Report (PTSAR).
- Source documents for columns (10) and (11) are from the Fiscal Year Timber Cut and Sold Report.
- Differences between volumes in columns (4) and (11) is that column (11) includes sales sold that were programmed as financed sell in previous Fiscal Years, plus any adjustment made after the final report was submitted.
- AAC is used through 1973; Potential Yield is used 1974-1986; Allowable Sale Quantity (ASQ) is used after 1986.
- Salvage Sale Fund volumes are included in columns (3) through (8).
- Volume under contract (12) include sawlogs and convertible products.
- Beginning in FY2006, timber sale accomplishments changed from Volume Offered to Volume Awarded.
- In FY2006 only, column (4) includes FY 2006 volume awarded and FY 2005 volume offered but not awarded until FY 2006.
- Starting in FY2009, Actual Sell volume (column 4) from the PTSAR will match the Total Sold volume (column 11) from the Cut and Sold Reports.

# From 1998 on, Forest ASQ is composed of the following noninterchangeable components.  
Green And Recent Dead 133.0 MMBF; Older Dead And Post And Poles 1.0 MMBF; And Pulp 4.0 MMBF

Data in some columns may not be completely accurate due to rounding.

- Source documents for columns (3) through (8) are from the Fiscal Year Periodic Timber Sale Accomplishment Report (PTSAR).
- Source documents for columns (10) and (11) are from the Fiscal Year Timber Cut and Sold Report.
- Differences between volumes in columns (4) and (11) is that column (11) includes sales sold that were programmed as financed sell in previous Fiscal Years, plus any adjustment made after the final report was submitted.
- AAC is used through 1973; Potential Yield is used 1974-1986; Allowable Sale Quantity (ASQ) is used after 1986.
- Salvage Sale Fund volumes are included in columns (3) through (8).
- Volume under contract (12) include sawlogs and convertible products.
- Beginning in FY2006, timber sale accomplishments changed from Volume Offered to Volume Awarded.
- In FY2006 only, column (4) includes FY 2006 volume awarded and FY 2005 volume offered but not awarded until FY 2006.
- Starting in FY2009, Actual Sell volume (column 4) from the PTSAR will match the Total Sold volume (column 11) from the Cut and Sold Reports.

# From 1998 on, Forest ASQ is composed of the following noninterchangeable components.  
Green And Recent Dead 1024.6 MMBF; Older Dead And Post And Poles 57.0 MMBF; And Pulp 23.0 MMBF

Data in some columns may not be completely accurate due to rounding.

- Source documents for columns (3) through (8) are from the Fiscal Year Periodic Timber Sale Accomplishment Report (PTSAR).
- Source documents for columns (10) and (11) are from the Fiscal Year Timber Cut and Sold Report.
- Differences between volumes in columns (4) and (11) is that column (11) includes sales sold that were programmed as financed sell in previous Fiscal Years, plus any adjustment made after the final report was submitted.
- AAC is used through 1973; Potential Yield is used 1974-1986; Allowable Sale Quantity (ASQ) is used after 1986.
- Salvage Sale Fund volumes are included in columns (3) through (8).
- Volume under contract (12) include sawlogs and convertible products.
- Beginning in FY2006, timber sale accomplishments changed from Volume Offered to Volume Awarded.
- In FY2006 only, column (4) includes FY 2006 volume awarded and FY 2005 volume offered but not awarded until FY 2006.
- Starting in FY2009, Actual Sell volume (column 4) from the PTSAR will match the Total Sold volume (column 11) from the Cut and Sold Reports.

# From 1987 on, Forest ASQ is composed of the following noninterchangeable components.  
Green And Recent Dead 478.3 MMBF; Older Dead And Post And Poles 30.0 MMBF; And Pulp 5.0 MMBF

Data in some columns may not be completely accurate due to rounding.
